

→ CE2 : Je sais soustraire 9 à un nombre.

→ CM1 : Je sais soustraire 9, 19, 29 à un nombre.

- Observe la stratégie pour soustraire 19 à un nombre.

CE2

$$52 - 19 = 52 - 20 + 1 = 33$$

Pour soustraire 19 à un nombre,
on soustrait 20, c'est-à-dire 2
dizaines, puis on ajoute 1.

Recopie et calcule.

CM1

$$62 - 8 =$$

► Recopie et calcule.

CE2

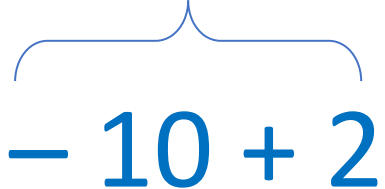

$$37 - 19 =$$

Exemple

Correction

CM1

$$62 - 8 = 54$$

$$- 10 + 2$$

► Recopie et calcule.

CE2

$$37 - 19 = 18$$

$-20 + 1$

Exemple

Recopie et calcule.

CM1

$$84 - 9 =$$

► Recopie et calcule.

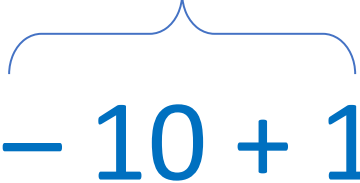

CE2

$$65 - 19 =$$

Correction

CM1

$$84 - 9 = 75$$

► Correction

CE2

$$65 - 19 = 46$$

$-20 + 1$

Recopie et calcule.

CM1

$$75 - 18 =$$

► Recopie et calcule.

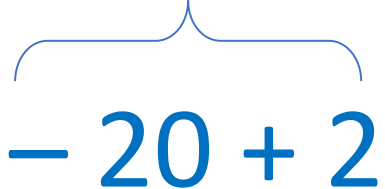

CE2

$$97 - 19 =$$

Correction

CM1

$$75 - 18 = 57$$

► Correction

CE2

$$97 - 19 = 78$$

$-20 + 1$

Recopie et calcule.

CM1

$$62 - 18 =$$

► Recopie et calcule.

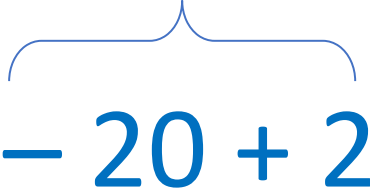

CE2

$$125 - 19 =$$

Correction

CM1

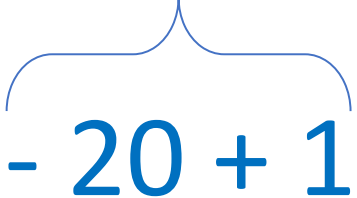

$$62 - 18 = 44$$

► Correction

CE2

$$125 - 19 = 106$$

- 20 + 1

Recopie et calcule.

CM1

$$84 - 19 =$$

► Recopie et calcule.

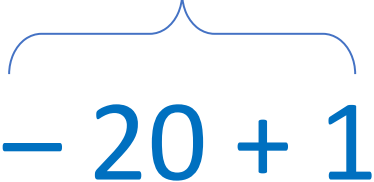

CE2

$$341 - 19 =$$

Correction

CM1

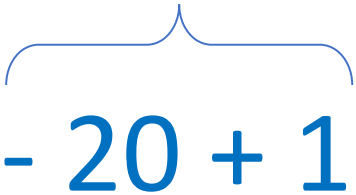

$$84 - 19 = 65$$

► Correction

CE2

$$341 - 19 = 322$$

Recopie et calcule.

CM1

$$646 - 29 =$$

- Recopie et calcule.

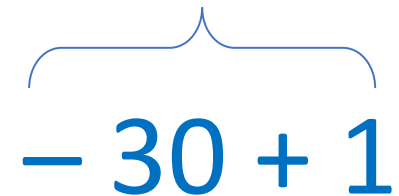

CE2

$$568 - 19 =$$

Correction

CM1

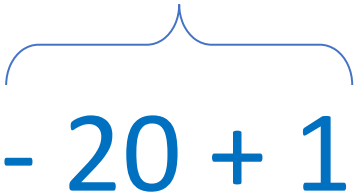

$$646 - 29 = 617$$

$$- 30 + 1$$

► Correction

CE2

$$568 - 19 = 549$$

- 20 + 1

Recopie et calcule.

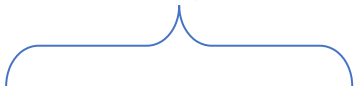

CM1

$$791 - 38 =$$

► Correction

CE2

$$568 - 19 = 549$$

- 20 + 1

Correction

CM1

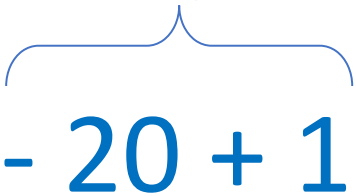

$$791 - 38 = 753$$

- 40 + 2

► Correction

CE2

$$568 - 19 = 549$$

- 20 + 1

Recopie et calcule.

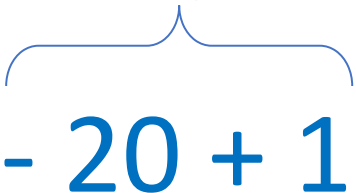

CM1

$$1257 - 39 =$$

► Correction

CE2

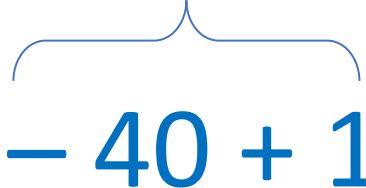

$$568 - 19 = 549$$

- 20 + 1

Correction

CM1

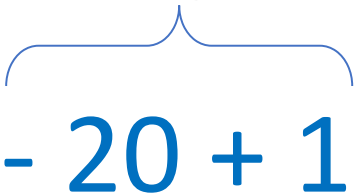

$$1257 - 39 = 1218$$

- 40 + 1

► Correction

CE2

$$568 - 19 = 549$$

- 20 + 1

Recopie et calcule.

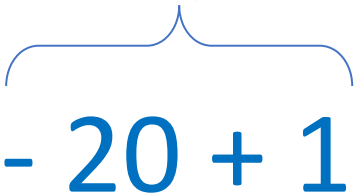

CM1

$$3549 - 19 =$$

► Correction

CE2

$$568 - 19 = 549$$

- 20 + 1

Correction

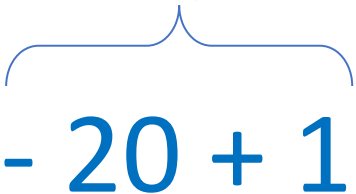

CM1

$$3549 - 19 = 3530$$

► Correction

CE2

$$568 - 19 = 549$$

- 20 + 1

Recopie et calcule.

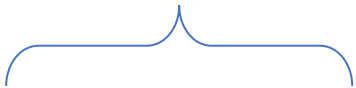

CM1

$$5170 - 18 =$$

► Correction

CE2

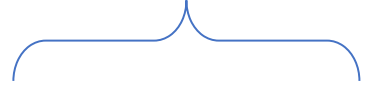

$$568 - 19 = 549$$

- 20 + 1

Correction

CM1

$$5170 - 18 = 5152$$

- 20 + 2
