

→ Je sais ajouter 8, 9, 18, 19, 28, 29, 38 ou 39 à un nombre.

- Observe la stratégie pour ajouter 8 à un nombre.

$$36 + 8 = 36 + 10 - 2 = 44$$

Pour ajouter 8 à un nombre, on ajoute 10, c'est-à-dire une dizaine, puis on soustrait 2.
