

- **CE2** : Je sais additionner, soustraire des centaines à un nombre.
- **CM1** : Je sais additionner, soustraire des dizaines, des centaines à un nombre.

Stratégie

Additionner/Soustraire des centaines

$$121 + 200 = 321$$

Additionner 200, c'est ajouter **2** centaines.

Additionner 300, c'est ajouter **3** centaines.

Additionner 400, c'est ajouter **4** centaines.

$$438 - 200 = 238$$

Soustraire 200, c'est enlever **2** centaines.

Soustraire 300, c'est enlever **3** centaines.

Soustraire 400, c'est enlever **4** centaines.
